PREFACE

In order to be precise and to economize on the use of words, the *Florida Statutes* gives specific meanings, or definitions, to certain terms and phrases. Once defined, a term or phrase is used in the text of a statute or constitution section rather than the continual repetition of the complete description or meaning.

This index lists all terms and phrases that are defined in the *Florida Statutes 2013* and the *Florida Constitution*.

Defined terms and phrases are listed alphabetically, exactly as they appear in the statutes or constitution, except that nonessential leading articles are dropped. When a term is defined in more than four places, subject entries similar to those used in the *General Index to the Florida Statutes* are provided to assist the user in narrowing the search. References are to statute section numbers or to article and section numbers of the constitution.

This index contains all terms and phrases specifically stated to be definitions, as well as those considered to function as definitions in the context of a particular statute or constitution section.

Users are cautioned that many terms and phrases are defined only within the context of a particular chapter, part, or section of the *Florida Statutes* as distinguished from the generally applicable definitions set forth in s. 1.01, *Florida Statutes*.

The *Definitions Index* has been constructed and is annually updated through a detailed review by our indexing staff. Users are encouraged to communicate any overlooked definitions to the Division of Law Revision and Information for inclusion in subsequent editions of this publication.
