Remove lines 201-208 and insert:

ASSESSMENT OF WORKING WATERFRONT BASED ON CURRENT USE.--

This proposed amendment to the State Constitution provides that certain working waterfront properties will be assessed for the purposes of ad valorem taxation based on their use, rather than at just value. The properties affected include land used for a variety of water-dependent activities, including commercial fishing, marine manufacturing, vessel construction and repair, marinas, and land used for vessel launches which is accessible to the public.
