Dear Committee,

Proposed Rule 2.072, if promulgated, will serve to clog up commerce and the justice system. Checking out files is usually done by large companies or large law firms involved in real estate related transactions. They use professional couriers or in house runners who obtain and replace their files in an systematic way. The proposed rule will most inconvenience the users in the large counties who are not the cause of whatever problems exist. The proposed rule should be sensibly modified.

Sincerely,

Gregory T. Zell
