Re: Petition to Amend Rules 2-11.1 and 4-13.2 of the Rules of the Supreme Court Relating to Admission to the Bar
Petitioners: The Orange County Bar Association and Thomas B. Drage Jr., Esq.
Case No: SC02-2354

Your Honors:

The purpose of this letter is to state my support for the petition proposing amendments to Rules 2-11.1 and 4-13.2 of the Rules of the Supreme Court Relating to Admission to the Bar.

I have been a member of the bar since 1985, and my bar number is 501557. While I have limited knowledge of the history of Rules 2-11.1 and 4-13.2, I feel qualified to comment on the pending petition due to the fact that I have met and associate with a Barry graduate in the professional arena. I am well aware this individual has already received his first Juris Doctorate and because of an arbitrary rule he is required to earn a second degree. This is unprecedented, and seemingly unfair.

My understanding of the situation is that while Barry University School of Law attempted to gain accreditation, the ABA changed the process so that the House of Delegates can only remand the accreditation decision back to the Council of the ABA Section of Legal Education and Admission to the Bar. In other words, the House of Delegates is no longer vested with the power to make the final accreditation decision. This change has resulted in the distinct possibility that a final decision could take as long as three years. As this Honorable Court is well aware thirty-six months is not the current twelve months as currently provided for under the rules.

The twelve month rule has outlived its usefulness and should be changed to thirty-six months so current students at FAMU and FIU do not meet the same fate as befell Barry's first three graduating classes.

I urge the Court to change the rules in a manner that suits the Court and the profession it regulates. Please assist the 109 Barry students caught in this situation. In the process, we eliminate the possibility of this scenario playing out again as Florida's two newest law schools undergo ABA scrutiny.

Respectfully submitted,

ADAM B. REISS
