Re: Petition to Amend Rules 2-11.1 and 4-13.2 of the Rules of the Supreme Court Relating to Admissions to the Bar
Petitioners: The Orange County Bar Association & Thomas B. Drage, Jr., Esq. Case No: SC02-2354

Your Honors:

My name is Gregory Allan Popp and I have been a member of the Florida Bar for more than 26 years, my license number is 0220531. I practice in an office where a Barry University School of Law graduate affected by the current rules of admission to the bar in Florida is employed. I am writing you today to express my support for the above-referenced petition.

It appears to me that the intent behind the current rules relating to bar admission is to ensure that the graduates taking the bar exam have graduated from a law school that has met certain standards. While it is important to ensure a high level of education, the rule has not changed to reflect the changes in the ABA accreditation process, and as a result has resulted in substantial harm to over 100 individuals, many of whom may otherwise be eligible for admission to the Florida Bar. In 1999 the ABA began changing its accreditation process. Florida's rules relating to the definition of "accredited" and "educationally qualified" have not been substantially changed since the early 1970's. As a result, Barry's first three graduating classes were denied the opportunity to obtain bar licenses because Florida's rules still follow the accreditation process under the prior ABA accreditation process.

For these reasons I strongly urge the Court to adopt either of the two proposed rule changes set forth in SC02-2354, to allow the graduates from Barry University School of Law and the law students at other in-state law schools the opportunity to enter this noble profession and work for the citizens of Florida.

Thank you for your consideration of this important question.

Sincerely,

Gregory A. Popp
