REPLY ARGUMENT

It is respectfully suggested that the Answer Brief of the Florida Bar correctly requests that this Honorable Court find that the Referee violated the due process rights of the Respondent and that the weight of the evidence supports a suspension and not disbarment.

For the reasons set forth in the Respondent's Initial Brief on appeal and those reasons stated by the Florida Bar in its Answer Brief, the Respondent suggests that the

the Referee erred on several levels that should result in the Supplemental Report of Referee being stricken or disregarded in its entirety and that this Honorable Court approve the Consent Judgment submitted with the original Report of Referee filed on October 1, 2007.
